 EDITOR JOHN B. GAINES of Bowling Green,
 commenting on the conditions in that city, says:
 "No town has ever done much with one-half
 of it against the other half or with any con-
 siderable number pulling against the major-
 ity. Let's get together and work together and
 build up and prosper together."

Our People Must Pull Together.

The Bowling Green conditions exist in all towns, and Maysville also has some of the same kind of sentiment. The force of progress exists in the unity of a town's citizens. Pulling together, they get everything they want; pulling against each other, they get—left.

There never was a better time to remind the business men and citizens generally of Maysville to understand that the situation today is entirely different from that of ten years ago. Then things drifted along and everybody was satisfied. Now it is different, and any and all cities have to fight for supremacy in the mighty arena of competition which exists from one end of the country to the other. It's ACTION now, and the most hustling kind of action, if any town expects to hold its own and win the prize in civic progress and commercial growth.

It is "dead ones" who drive a town down the slide to commercial oblivion, and each town forges ahead in proportion to the number of knockers, kickers and dead ones it hasn't got.

What we must do is to unite and win over to the army of progress the awkward squad of miserable mossbacks, whose calamity howls poison the air of a city, disgust the live ones and drive away the business element which would otherwise abide with us and help us make Maysville what it should be—a model city, growing and pulsating with business, with all the conveniences and ornamental features that go to make existence inviting, enjoyable and really worth the price paid for it by honest and progressive endeavor.

OTTUMWA WOMAN CURED

Ottumwa, Iowa.—"For years I was almost a constant sufferer from female trouble in all its dreadful forms; shooting pains all over my body, sick headache, spinal weakness, dizziness, depression, and everything that was horrid. I tried many doctors in different parts of the United States, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors. I feel it my duty to tell you these facts. My heart is full of gratitude to you for my cure."—Mrs. HARRIET E. WAMPLER, 524 S. Ransom Street, Ottumwa, Iowa.

Home Treatment for Tuberculosis

Many people have cured themselves of tuberculosis by a very simple, inexpensive home method—fresh air, careful diet and Eckman's Alternative.

Eckman's Alternative is not a new medicine. It has been conquering tuberculosis for several years, curing resulting after other methods had failed.

Think what this means. No specialist's fees; no sanatorium charges; no traveling expenses.

Eckman's Alternative has cured many people at home, where their dear ones can encourage them and give them that tender care which money cannot buy.

After you have thoroughly investigated our affidavits and testimonials—feel pure in your own mind that if Eckman's Alternative has cured so many others, it surely must help you—start taking the Alternative. Your improvement should be gradual, but certain.

If you have been faithful to Eckman's Alternative, you will be amazed at your improvement. A statement from one who knows follows:

220 So. 4th St., Colwyn, (Darby) Pa.
 Gentlemen: "For four years I was troubled with cough, which gradually became worse. I had night sweats and pains in my chest. I was losing my appetite and had become so thin and weak I could not attend to my household duties. A physician pronounced my case 'consumption.' Not being satisfied, I was examined by the physicians of the Polylinic Hospital; they also pronounced me diseased. Consumption, which was proven later, by an examination of sputum, as Tuberculosis Bacilli was found. I was ordered to a Consumptive Hospital. My nephew would not allow me to go until I had tried Eckman's Alternative. Before I had taken the medicine three weeks I had marked relief; night sweats ceased; pain in the breast relieved; cough became loose and easy; ever left me and I commenced getting well. My health became normal. I am in excellent health now and have been completely cured for ten years. I strongly recommend it."

Our Weekly Tobacco Letter

We sold on our market last week 976,529 pounds, prices ranging from 3c to 22 1/2c per pound. At the Farmers' Warehouse the sales amounted to 1,634,295 pounds, with some of the following averages: B. S. Moxley & Co., \$16.94 per hundred; C. E. Galbreath, \$12.50; Mrs. E. T. Rees, \$12.32; John Day, \$14.97.

A great amount of the offerings the past week has been from the mountain counties, some of it very poor tobacco and necessarily bringing a low price. The tobacco offered from Mason and Brown county, Ohio, showed considerable character and merit and sold well.

Last week was the largest week we have ever had on the Mayville market in amount of offerings. The market was strong, especially on good tobacco. This week we expect larger offerings than last week, but we have facilities for taking care of your

"CORN IS KING"

Greatest Corn Show Ever Held Will Take Place at Columbus January 30th to February 11th

COLUMBUS, O., January 21st—"King Corn," the most important cereal crop, which amounted in 1910 to 3,121,381,000 bushels, will be tendered special homage at the National Corn Exposition to be held in Columbus, January 30th to February 11th. At no time in the history of agriculture has this all-important crop been so recognized—one day being set aside, known as "National Corn Day." The festivities in celebration of "King Corn" will continue throughout the day with addresses by prominent farmers and famous orators, when the matter of production and consumption of the corn crop will be threshed out.

It will be one of the most notable days of the greatest of all agricultural expositions, and one which will be a sterling milestone in the progress of agriculture.

While the entire day will be given over to discussions of corn improvement by noted specialists, the evening program will be of still greater interest to many of the visitors, for the splendid National Corn Banquet will be the feature.

Plates will be laid for 1,500 guests, the Ohio Corn Improvement Association to be the host. The banquet will be held in the immense Exposition auditorium, and with the grandest menu of all corn products, intermingled with catchy music and other entertainment features, the evening will be one of much gaiety.

The program for the day includes addresses by P. G. Holden of Iowa, C. G. Williams, Ohio; G. I. Christie, Indiana; William Dietrich, Illinois; C. G. McCall, Ohio; W. J. Spillman, Department of Agriculture.

At the evening corn banquet, Secretary James Wilson of the Department of Agriculture will be the principal speaker. His topic will be "The Evolution of American Agriculture." Senator Burton of Ohio, Senator Clapp of Minnesota, and other notables will speak. Governor Harmon of Ohio will preside at the ceremonies incident to the occasion, and Secretary Sandler of the Ohio State Board of Agriculture will be toastmaster.

ANOTHER VICTIM

Added to the Already Long List—
**Delbert Burchett Killed By
a C. and O. Freight
Train**

Sunday morning about 6 o'clock Mr. George C. Keith, residing about four miles west of this city, reported through phone message to the C and O Depot officials that a man was being dead alongside of the track a short distance from his place.

Coroner Slack, and James Mackey of the firm of Mackey & Co., Undertakers, visited the scene and had the body removed to the rooms of the above firm, where later an inquest was held and a verdict of accidental death rendered.

Just how the man met his death is not known, and his untimely end is a matter of supposition. It was developed that his name is Delbert Burchett, aged 22, his parents residing at Smoky Valley, Carter county, Ky., and at the time of his taking off he was employed as a C. and O. bridge carpenter, with camp now at Concord, and it was further he wanted to go.

It is thought he boarded a Westbound freight train instead of one going East, and when the train reached Brushy he discovered his mistake and got off, and was probably returning to this city, walking the track, when struck by an Eastbound train. From where blood was first discovered and the body found lying alongside of track, was a distance of sixteen railroad ties. His leg was broken and head, face and breast crushed.

Mr. W. J. Owens, a cousin of Burchett, arrived this morning and left with the remains on the 10 o'clock C. and O. train for his late home at Smoky Valley where they will be buried in the family burying-ground.

THE PECK-WILLIAMSON UNDERFEED FURNACES AND BOILERS

The reason is plain. Cheapest slack in the Underfeed gives as much clean, even heat as the most expensive grades which ordinary heating plants require. All the fire is on top and has to eat down into the fresh coal underneath against the draft. Combustion is slow and perfect, and smoke, soot and gases are entirely eliminated. This enables Underfeed Furnace and Boiler users to effect an every year saving of 50% to 66 2/3%. Why give this good coin to the coal man? Put it in the Underfeed and let
